Seminar Report: [seminar ID] (e.g. Paxy)

Name of team members

February 6, 2019

Upload your report in PDF format.
Use this LaTeX template to format the report.
A compressed file (.tar.gz) containing all your source code files must be
submitted together with this report[1].

1 Introduction

*Introduce in a couple of sentences the seminar and the main topic related to
distributed systems it covers.*

2 Experiments

*Provide evidence of the experiments you did (e.g., use screenshots) and discuss
the results you got. In addition, you may provide figures or tables with experi-
mental results of the system evaluation. For each seminar, we will provide you
with some guidance on which kind of evaluation you should do.*

3 Open questions

*Try to answer all the open questions in the documentation. When possible, do
experiments to support your answers.*

4 Personal opinion

*Provide your personal opinion of the seminar, indicating whether it should be
included in next year's course or not.*

---

[1]Describe in the report any design decision required to understand your code (if any)
